Key sectors are on the path to recovery, with business activity limping towards pre-Covid levels. In the final part of the series, we are looking at the textile and real estate sectors:

Textiles: A case for cautious optimism

■ RISIL expects textile firms to see gradual recovery in demand during FY22, as Covid worries ease and discretionary spending returns — as reflected in the recent festive sales. The industry's revenue is expected to grow 40-45 per cent in FY22, after a sharp de-growth in FY21.

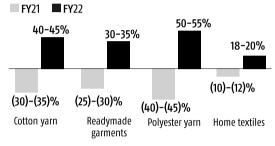

Recovery will be across segments, including cotton yarn, readymade garments, polyester yarn, and home textiles, driven by higher domestic and export demand, Further, domestic players will gain market share from China, given the growing preference for India as a supplier.

Operating margins of textile players will recover to pre-pandemic levels in FY22, after an expected decline of 250-300 basis points (bps) in FY21. This will ride on better capacity utilisation, benign raw material prices, and rupee depreciation.

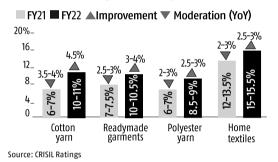

In FY21, lower cash accrual will weaken credit metrics of textiles makers. However, with modest capacity addition and higher cash accrual in FY22, they will improve, along with recovery in revenue and profitability. For cottonyarn and garment makers, interest coverage will improve to over 3.5x the next FY, against below 2x in FY21. For polyester yarn and home textiles makers, it should improve from 3x to 4.2x.

STITCHING UP GROWTH Expected revenue growth (YoY)

Expected operating profitability

Realty: Showing a sharp but shaky rebound

RISIL expects residential sales to rebound close to 40 per cent in FY22 to 150-160 million square feet (msf) in the top six cities (MMR, Delhi-NCR, Bengaluru, Pune, Hyderabad, and Kolkata), on account of lower capital values and interest rates.

Sales may remain below the pre-Covid levels of 170-180 msf, owing to weak investor sentiment about the pressure on capital appreciation / rental yields over the past few years.

The larger established developers, with strong balance sheets, will continue gaining market share in FY22. These players are bucking the trend as they look to end FY21 at levels similar to previous years.

The credit profiles of small-to-mid-sized and large leveraged developers were already under stress before the pandemic, due to the NBFC-led crisis.

The credit outlook for these players may remain weak in FY22, as end-users gravitate towards wellestablished players with a strong track record.

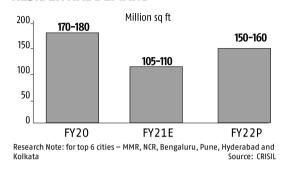

Commercial office spaces may have a limited impact, on account of the surrender of leases by stressed tenants or the impetus to work from

Vacancy may see a modest increase by up to 5 per cent over the next 12 months. However. absorption of new areas coming up in FY21 and FY22 is likely to be a challenge, as cautious business environment may limit demand.

Satyaa Homes, Ambuja to develop Kolkata township

Kolkata, 3 January

After one of the largest land development deals of Kolkata in 2020, Ambuja Neotia group and Satyaa Homes will jointly develop a 72-acre township in Rajarhat, in the northeastern part of Kolkata.

The deal will result in a large plotted/villa development township with Ambuja Neotia as the development management partner and HDFC Capital Advisors as finance partner. The deal was forged by Anarock Property Consultants.

Harshvardhan Neotia, chairman, Ambuja Neotia, said, "We are delighted to partner with Satyaa and HDFC to do this plotted development township in Rajarhat. Today, customers are looking forward to having a small home of their own on a freehold property where they can have a private patch of green. This is more so in the post-pandemic world."

The township, which will encompass plotted developments, villas, villaments and apartments, will be completed within five years. The project will be delivered jointly by Ambuja Neotia Group and Satyaa Homes.

The last major township in Rajarhat was a 100-acre residential project by Unitech called Uniworld, which was completed about 10 years ago; it was later acquired by Brookfield and is now known as Candor Tech Park. Rajarhat, incidentally, is home to major IT-ITeS companies and is also close to Sector V, Salt Lake, Kolkata's IT hub.

Commenting on the Soumendu Chatterjee, director & city head - Kolkata, Anarock Property Consultants, said, "This deal is welltimed, aligning with the renewed aspirations in Kolkata for quality homes in superlative settings.

"Rajarhat's residential sector offers options across all budget segments but the affordable segment is predominant, accounting for nearly 54 per cent of the housing supply here. Mid-end segment housing accounts for only around 29 per cent of the region's residential supply," added Chatterjee.

DGCA to issue licences online, launch new app

ANEESH PHADNIS Mumbai, 3 January

The Directorate General of Civil Aviation (DGCA) will offer all its licensing and approval services online and launch a mobile app for pilots by the end of February.

The DGCA provides over 200 different types of services, including the issuance, validation, and renewal of licences, as well as approvals to training schools, and maintenance and repair units. In addition, it certifies and approves airports and issues permits for flight operations. Permissions for carriage of dangerous goods such as arms or explosives, too, are provided by the regulator.

These services involved paperwork and visits to DGCA offices earlier, and the civil aviation regulator began its digitisation exercise in December 2019. The project was proposed in the National Civil Aviation Policy of 2017.

The total project cost is over ₹170 crore, including expenses towards operations and maintenance. "Digitisation is being carried out

in phases. While there has been a slight delay due to Covid-19. we are on track to complete the exercise and provide all services online by February end. This will make it easier for users to apply and track their files," said Director General of Civil Aviation Arun Kumar.

"So far, over 18,600 pilots — nearly 95 per cent — have registered with us. We have already replaced licences in the card format, from the booklet form. We will launch a mobile app for pilots. The app is under final phase of testing before its release on the Android platform," Kumar said.
